

Rakyan Jenar Sakuntala

UI/UX Designer

INTRODUCTION

UI/UX Designer with hands-on experience in designing web and mobile products, with a strong interest in creating intuitive and meaningful digital experiences. Experienced in user-centered design, interface design, wireframing, prototyping, design systems, and usability testing. With a background in Information Systems, I enjoy exploring how design, user needs, and technology can come together to create practical and engaging digital products.

WORK EXPERIENCES

Freelance UI UX

Agustus 2022 – Now

- Led the end-to-end design process for 5+ web and mobile application features, from identifying user problems and exploring solutions to prototyping and validation.
- Established a structured design documentation system that streamlined workflows, improved information accessibility, and strengthened cross-functional collaboration.
- Leveraged user behavior insights to refine interface experiences and identify opportunities to improve website engagement.

Freelance UI UX • MDMedia By Telkom Indonesia

Maret 2025 – Agustus 2025

- Contributed to the redesign of MDMedia’s internal portal and corporate website, transforming complex requirements into clear, intuitive, and user-centered interfaces.
- Translated Figma designs into responsive HTML, CSS, and Bootstrap while maintaining visual consistency across different screen sizes.
- Supported the end-to-end design process for multiple web features, from wireframing and prototyping to usability testing and design refinement.
- Collaborated with the DevOps team to bridge design and development, ensuring seamless integration and consistent user experiences across platforms.

Admin UI8 • Ideologyst

Februari 2024 – Juni 2024 | Semarang

- Researched emerging UI/UX trends, competitor products, and design patterns to inform stronger visual and product design decisions.
- Conducted design improvement initiatives through competitor analysis, research, and UI/UX best practices.
- Collaborated with the team to explore design directions and improve the quality and consistency of digital experiences.

UI UX Designer Intern • Callour Studio

Juni 2022 – Agustus 2022 | Purwokerto

- Explored visual styling and interface design principles to develop clear, engaging, and consistent digital interfaces.
- Learned and applied interface architecture concepts to structure content and interactions more effectively within digital products.
- Applied AIDA (Attention, Interest, Desire, Action) principles to design decisions, particularly in creating interfaces that guide users through key information and actions.
- Studied Atomic Design principles to understand how interface elements can be structured into reusable and scalable components.
- Presented design concepts and explained design decisions during team discussions, incorporating feedback to refine visual and interface solutions.

UI UX Designer Intern • Slab! Design Studio

Agustus 2021 – November 2021 | Jogja

- Developed digital product concepts and portfolio pieces based on design briefs provided by mentors.
- Explored different visual styles, interface layouts, and design approaches to strengthen fundamental UI/UX skills.
- Translated 5+ design briefs into digital product designs while learning to refine concepts based on mentor feedback.

UI UX Designer Intern • Ohvey Design Studio

Desember 2020 – Maret 2021 | Jogja

- Designed various digital interface concepts while exploring different visual styles and UI approaches.
- Developed interface components and design elements to build a stronger foundation in visual and interface design.
- Completed 5+ design briefs to explore different design directions and develop a distinctive visual style.
